Ridgewood has paved the way for other New Jersey towns to join Bee City USA. Frank Mortimer, the Bee City USA – Ridgewood committee chair provides info to other towns looking to join and help them get started.

Our community was invited to join the Ridgewood Shade Tree Commission to dedicate newly planted oak trees to the 250+ pollinators they support, and learn about the many pollinators that depend on oak trees for their survival and why these trees are so important to so many.

Our committee is made up of representatives from many of our town’s environmentally conscious groups and committees. Specifically, Women Gardeners of Ridgewood, Ridgewood Green Team, Conservancy for Ridgewood Public Lands, Ridgewood Environmental Advisory Committee, Ridgewood Wildscape Association, Northeast New Jersey Beekeepers Association, and Health Barn USA.

Recommended Locally Native Plant Species List—To be developed
Regional Native Plant Supplier List—To be developed
Pollinator Friendly Integrated Pest Management Plan—To be developed
